STATISTICS AND FACTS ABOUT NEBRASKA SCHOOLS

INFORMATION PERTAINING TO PUBLIC AND NON-PUBLIC SCHOOLS OF NEBRASKA FOR THE SCHOOL YEAR 1980-81

Each year the Nebraska State Department of Education obtains statistical information from each public school district, state-operated, and private school system in the State to fulfill various Federal, State and Departmental requirements. Information is obtained twice each year, at the start of the school year by the Annual Fall Reports and at the end of the school year by the Annual Term Summary Reports. This volume has been prepared from that data reported on the Fall Reports which were received approximately October 1, 1980. Volume II of the 1980-81 Statistics and Facts about Nebraska Schools will be issued following completion of the school term and receipt of the Annual Term Summary Reports from all school systems. School Finance data is published in a separate document.

INTRODUCTION

In order to interpret the following tables it is important that the reader understand the definitions for the following public school terms:

CLASS OF SCHOOL DISTRICT

CLASS I -- School districts which are organized to provide school for the elementary grades. Generally this includes kindergarten and grades 1 through 8. However, in some cases, a Class I district may be part of a secondary district which provides education for the 7th and 8th grade students.

CLASS II -- School districts which maintain school for both elementary and secondary grades and have a total population of 1,000 inhabitants or less.

CLASS III -- School-districts which maintain school for both elementary and secondary grades and have a total population of from 1,000 to 50,000 inhabitants.

CLASS IV -- School districts which maintain school for both elementary and secondary grades and have a total population of from 50,000 to 200,000 inhabitants. (The school district of Lincoln is the only Class IV school district).

CLASS V -- School districts which maintain school for both Elementary and Secondary grades and have a total of over 200,000 inhabitants. (The school district of Omaha is the only Class V school district).

CLASS VI -- School districts organized to offer school for only the secondary grades.

Nebraska has a total of 1,064 public school districts, six State-Operated schools, and 227 private school systems for school year 1980-81.

The public school districts have decreased from 1,091 districts in 1979-80 to 1,064 districts this year, a decrease of 27 districts. Seventy percent of the districts (745) are Class I districts which are either K-6 or K-8 systems. This year, there are 401 of these Class I districts which are one-teacher schools. The district sizes range from one student to 44,719 students in the Omaha district. The State average school district size is 263 students. Approximately 7% (18,942) of the public school students in the State attend a Class I school. The other 93% attend a complete K-12 system.

INTRODUCTION
(Continued)

Total enrollment in the State for 1980-81 is 317,280 students. Eighty-eight (88) percent attend public schools, eight-tenths of one percent (.8) attend a State-operated school and eleven (11) percent attend private or parochial schools. Total State enrollments have decreased from 324,614 in 1979-80 to 317,280 students this year -- a reduction of 7,334 pupils. Yearly decreases have occurred since the 1968-69 school year. Slight enrollment decreases are expected until approximately the mid 1980's, at which time enrollments are expected to bottom-out at approximately 308,000 students. Slight enrollment increases are then expected through the 1985 to 1990 school years. Due to the fact that there is basically a zero in-out migration pattern in Nebraska, school enrollments are primarily controlled by the birth rate trend.

There are 24,735 minority students enrolled in Nebraska schools. This is 7.8% of total State enrollments. Approximately 7% of the minority students attend private schools; the other 93% attend public schools. Of the four major minority races, there are 2,190 Asian, 5,869 Hispanic, 2,453 Indian, and 14,223 Black students.

The enrollment data reflects 51% males and 49% females.

In the 1980-81 school year, there are fewer certificated personnel being employed by the school systems in Nebraska. In 1979-80, there were 23,531 people employed; in 1980-81 there were 23,166 people -- a decrease of 365 people. This is based upon a full-time equivalency calculation.

1979	1,573,946	26,199	16.6

This table indicates the number of births reached an all-time high in 1961, with 34,544 children born. A yearly decrease then occurred until 1973 when only 22,771 births were recorded. The last seven-year period once again reflects a general increase in births. This will tend to slow the decreasing enrollment situation in the State. By the mid-1980's school membership may reflect slight yearly increases.
